

Consultation Services

Supporting students in an educational setting with challenges in behavior, social and communication disorders is a call most school teams encounter.

Cape Cod Collaborative provides technical assistance to support teachers and teams working with students with challenging behaviors (including students in the Autism Spectrum Disorders) to increase opportunities for supportive inclusive environments.

Consultation duties may include:

- Direct consultation to staff (teachers/assistants) regarding specific student concerns
 - Student observation
 - Meeting 1:1 w/teacher, paraprofessional, etc
 - Child study participation
 - Supporting home/school communication
- Direct consultation to teams to integrate methods of Applied Behavior Analysis (ABA)
- Direct consultation to teams to understand the challenges & characteristics of Autism Spectrum Disorders (ASD)
- Modeling & hands-on training
- Observations & Assistance to teams to write behavior support plans
- Assistance in modifying academic activities
- Assistance in using visuals
- Assistance in data collection & creating data collection systems
- Training for staff
 - Classroom staff
 - School wide (in-service days)
 - Training preparation & presentation taken from consult time
 - Hand-outs copied by district
- Support team/teacher meeting with parents to share strategies
 - Offer suggestions for home programs
 - Review behavior strategies
 - Attend home visit with school staff

Duties are focused on supporting district school personnel to obtain the skills necessary to facilitate a successful and positive learning experience for their students in an inclusive setting with challenging behavior.

Important to note:

- ☑ **This is not a direct service to students**
- ☑ **Consult is to team/program/school/district – Not individual students**
- ☑ **Consultants follow a school-year calendar**

Services are contracted for the school year. 2009-2010 rate: One full-day (6 hr/day) per week for \$16,800 (non-member districts add 10%)

**Supporting Team
Development and
Success**

Many districts struggle to support classroom and school staff to meet the needs of students with challenging behaviors. We offer technical support through Master's level teachers and BCBA's to build capacity within your district in a cost effective and consistent manner throughout a school year.
